**ONE-STOP SOLUTION
APPROACH**

Established in 2019, the company's activities are directed at providing comprehensive, customized FASING Group solutions to the mining industry in the United States. The company has a shop space located in Wheeling, WV. This solution enables us to supply a wide range of products offered by FASING Group production companies, including link mining chains, panlines and sprockets for face conveyors and stageloaders, which can be quickly delivered to our customers in North America.

FASING America is a company that is part of the organizational structure of the **FASING Group** which is the largest producer of link chains and chain assemblies for the mining industry in Central Europe and one of the largest in the world. **FASING Group** has more than **110 years of experience in the production for the mining industry**. Within **FASING Group** there are also other entities operating within the production of equipment for the mining and electromechanical industry. Their headquarters are located in Katowice (Poland), which is the center of the Silesian agglomeration, associated for centuries with coal mining. We successfully exploit the synergy effect, offering comprehensive solutions in the production and supply of complete equipment for underground mines.
